

8200

Eight-Channel Line Mixer

8200 Eight-Channel Line Mixer

Features:

- Eight Inputs
- Eight balanced Insert Returns
- Level Control, Panner and two Aux Sends per channel
- Switchable Insert, Mute and Solo per each channel
- D-sub interface
- Utilizes the 2510 operational amplifier

The API 8200 Eight-Channel Line Mixer allows audio professionals to achieve the genuine API sound. When combined with the 7600 and 7800, the API 8200 provides a custom-sized, easily expandable console configuration. The 8200 boasts eight inputs in one rack space and also features a Level Control, a Panner and two Aux Sends per channel. Each channel has a balanced Input and conveniently switchable Insert, Mute and Solo switches, which makes the 8200 a perfect mixer for any line level application. This unit requires an API 7800 or 8200A for all summing.

The 8200 features API's industry-exclusive five-year parts warranty and exhibits the reliability and long life characteristic of all API products.
